REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art does not teach or fairly suggest a transfer device as claimed including two release buttons, one for a catheter and one for a cartridge, a gate and a gate actuator that prevents the functioning of the both buttons when the gate is in the open position to allow a treatment element to be delivered to the catheter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. US Patents 6,683,690 and 6,261,219 teach related transfer devices having safety apparatus to prevent the removal of the catheter.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Samuel G. Gilbert whose telephone number is 571-272-4725. The examiner can normally be reached on Monday-Friday 6:30-4:00.
